AVIJIT DAGUR

Data Architect in the Making

avijitdagur80@gmail.com 8167707848 KOLKATA LinkedIn

SUMMARY

Computer Science Engineering graduate with strong expertise in SQL, MySQL, Oracle, and RDBMS. Proficient in writing complex queries, PL/SQL, database design, normalization, indexing, and transaction management. Experienced in backend development with Node.js, REST APIs, and database-driven application logic. Passionate about database optimization, data integrity, and security. A motivated fresher eager to launch a career as a Database Administrator with a focus on Oracle and PL/SQL.

EDUCATION

Swami Vivekananda University, *Bachelor of Computer Science & Engineering* 08/2025 – Present

Brainware University, *Diploma in Computer Science & Engineering* 08/2022 – 07/2025

SKILLS

Database Technologies: PL/SQL, MySQL, SQL, Oracle, MongoDB, Firebase

Database Concepts: RDBMS, Database Design, CRUD Operations, Query Optimization

Programming Languages: C, Python, JavaScript

Tools & Platforms: SQL Workbench, Git, GitHub, Postman, VS Code

Core Skills: Debugging, Object-Oriented Programming, Problem-solving, Logical Thinking

Soft Skills: Communication, Teamwork, Time Management, Adaptability

PROJECTS

Digital Panchayat Web Portal , *MERN Stack Based Web Application* 10/2025 – 03/2026

- Designed MongoDB database schema for citizen services and panchayat record management.
- Implemented CRUD operations, REST APIs, and secure user authentication with data integrity.
- Optimized database queries for certificate generation and fast document retrieval.
- Built responsive UI for streamlined administrative workflows and citizen interactions.

PhotoCollab – Private Photo Sharing & Collaboration Platform , 06/2026 – Present
Full-Stack Web Application with PostgreSQL Database

- Designed relational database schema in PostgreSQL for secure user authentication and private image storage.
- Implemented collaboration feature using unique keys for shared photo walls with data integrity.
- Developed CRUD operations with transaction handling for reliable photo management.
- Optimized SQL queries using JOINs, foreign key constraints, and indexing for fast data retrieval.

INTERNSHIP EXPERIENCE

Node.js Intern, *WebHibe Technologies* 10/2024 – 12/2024

- Engineered backend modules and optimized database queries for improved application performance.
- Built and optimized CRUD operations, REST APIs, and database management layers.
- Assisted in debugging and troubleshooting backend system errors with analytical problem-solving.
- Collaborated with mentors and team members during agile development sprints.

CERTIFICATES

Oracle Cloud Infrastructure 2025 AI Foundations Associate (1Z0-1122-25) 01/2026

Deloitte Data Analytics Certificate 09/2025
